1. Commercial property

• Large losses (assessed amount of 250,000 USD or more) require a field adjuster, a forensic accountant for business interruption and notice to Reinsurance when the treaty threshold is reached.

• Fire losses: obtain the fire-department report and cause-and-origin findings; consider SIU where arson indicators appear.

• Advance payments for emergency mitigation are allowed up to the adjuster's authority.

2. Workers' compensation

• Employer report of injury is due to the carrier within 7 days; late reporting by the employee (over 30 days) is a red flag.

• Unwitnessed injuries, Monday-morning injuries and clinics with high-volume billing patterns warrant medical bill review and SIU triage.

• Use the state fee schedule; IME (independent medical examination) may be requested when treatment exceeds guidelines.

• Return-to-work program: contact employer within 5 business days to explore modified duty.

3. General liability

• Obtain the incident report, witness statements and contract / certificate-of-insurance details; tender to additional insureds where applicable.

• Reserve for defence costs separately from indemnity.
